Are you sick and tired of looking like a tourist and just about DONE with being herded like cattle in large tour groups? Here's what others have had to say about Travel Bible For Women: "Victoria's knowledge of anything to do with travel is exemplary. And her new book, Travel Bible For Women, is the icing on the cake. A woman traveling alone to different countries on business (and for pleasure) is par for the course these days. But awareness and familiarity with different cultures and customs; what to do and more importantly, what not to do, is not common knowledge and ignorance can lead to embarrassing and sticky situations, to say the least. For this reason I found Victoria's Travel Bible For Women absolutely invaluable. Not only is it overflowing with practical information and straight forward do's and don'ts, it's also a fascinating read! I certainly won't be making any embarrassing blunders or cultural faux pas through my lack of knowledge or cultural ignorance in the future - I have Victoria's Travel Bible For Women to guide me on my next trip. What will you be taking?" -- Lindsay Lewis, Author of The Inconvenient Child. Sydney, Australia. It's time to pack perfect. Every trip, every time. Your journey starts here. When you travel, the journey is just as important as the destination—and packing is the first step. In How to Pack, Hitha Palepu, a former consultant who has traveled more than 500,000 cumulative miles around the world, shows that what and how you pack are who you are. Confidence and comfort inspire success upon arrival, whether

you're exploring a new city, hoping to nail a job interview, or relaxing on a beach. In *How to Pack*, you'll learn about:

- Power Pieces vs. Fantasy Pieces: How clothing earns its place in your suitcase
- The Accessory Math Secret: The precise formula for all you need to finish off your outfits
- Folding versus Rolling: What's right for which items
- Globetrotter Gorgeous: Editing your beauty routine while still looking great
- The Packing Timeline: How to avoid "I'm forgetting something" syndrome
- Pack Perfect Lists: Samples and blanks for any kind of trip

Organized in over a dozen different categories, this guide gives smart tips for planning and researching a trip, getting there, making the most of the time, and traveling with kids, pets, and other companions. This practical handbook, written by security professionals that travel in some of the world's most dangerous environments, covers all aspects of travel security. It is full of easy-to-follow advice, and a must-read for leisure and business travelers. There are many things that you need to take care of while you are traveling. You might be on an all-inclusive Hawaiian vacation, but that does not mean that you don't have to plan anything. When you are traveling to an unknown destination the best thing that you should do to be prepared is read about the place. This does not mean that you just pick up random chatter from the internet. If you are referring to forums then make sure that you refer to forums that are authentic and are specific to the travel of the destination. Make sure that the people that you refer to on these forms are experts to a certain extent on the area of travel. This will help you to be prepared on your way to your holiday destination. Knowing beforehand what to expect would not only keep you prepared but also keep you safe on your travel. There are many things that are better known in advance before you travel to an unknown destination. This includes the climate of the place and the food available. This is because food and climate are two things that can make you fall sick the quickest. If you are from a relatively cold place and are not accustomed to the hot climate to the tropics then you should probably carry a portable air conditioner with you.

For any sort of serious travel, it's always a great idea to have a backpack. One travel gear tip to do with backpacks over any other form of container is that it lets you keep your hands free. It also shifts the weight of your burden to a part of your body that is better at dealing with it, rather than stressing one hand or switching hands all day long. One of the most common types of backpacks is a daypack. This is a small pack with just one big container and perhaps a couple of pockets on the outside. Many of the good ones also have a small fishnet holder for water bottles. These packs are usually very light and small, designed for taking a couple of necessary things with you during the day. From seasoned
