A New York Times Bestseller! From the bestselling How to Catch series comes a festive turkey tale and Thanksgiving book for kids! A

turkey is running loose in a school right before a Thanksgiving play. Can YOU help catch it so the show can go on? Follow along as students turn their school upside down trying to catch the turkey, ending with a twist that ensures no turkeys are harmed (or eaten!). This hilariously zany children's picture book combines STEAM concepts and traps with a silly story and fun illustrations, perfect for starting a new fall family tradition this autumn or giving as a Thanksgiving gift for kids ages 4 and up!

Thanksgiving time is here again, but there's a turkey on the run! Can you catch this tricky bird before the school play has begun? Also in the How to Catch Series: How to Catch a Unicorn How to Catch the Easter Bunny How to Catch an Elf How to Catch a Monster How to Catch a Leprechaun and more! Gradually since 2003, Turkey's autocratic leader Recep Tayyip Erdogan has sought to make Turkey a great power -- in the tradition of past Turkish leaders from the late Ottoman sultans to Ataturk, the

founder of modern Turkey. Here the leading authority Soner Cagaptay, author of The New Sultan -- the first biography of President Erdogan -- provides a masterful overview of the power politics in the Middle East and Turkey's place in it. Erdogan has picked an unorthodox model in the context of recent Turkish history, attempting to cast his country as a stand-alone Middle Eastern power. In doing so Turkey has broken ranks with its traditional Western allies, including the United States and has embraced an imperial-style foreign policy which has aimed to restore Turkey's Ottoman-era reach into the Arabian Middle East and the Balkans. Today, in addition to a domestic crackdown on dissent and journalistic freedoms, driven by Erdogan's style of governance, Turkey faces a hostile world. Ankara has nearly no friends left in the Middle East, and it faces a threat from resurgent historic adversaries: Russia and Iran. Furthermore, Turkey cannot rely on the unconditional support of its traditional Western

allies. Can Erdogan deliver Turkey back to safety? What are the risks that lie ahead for him, and his country? How can Turkey truly become a great power, fulfilling a dream shared by many Turks, the sultans, Ataturk, and Erdogan himself? Strains in U.S.-Turkish have grown since the end of the Cold War. Divergences have been particularly visible in policy toward the Middle East. As a result, Turkey is likely to be an increasingly difficult and less predictable partner in the future. Mr. and Mrs. Moose try to invite a turkey to their Thanksgiving feast. Turkey's recent history is filled with stories of immigration. With the number of immigrants exceeding three million, the Syrians who came to Turkey after the civil war in their country could be considered Turkey's largest experience with migration. This book provides a broad overview of the politics of urbanism within the "exceptional state", looking at what cannot be sacrificed but can be killed, leaving biopolitics as an escape route, with original and authentic

elements included. This book analyses the cultural meaning of individual life, presenting the results of a field survey. This study allows us to read belonging, and the possessive ties of the nostalgic identity within the present time, represented by photography as a rupture in the continuity of history, and provides a sociological and ontological reading of the image. Incorporating the meanings of visual images into the sociological field research, it reveals the tentative expressions of reality itself, with while coding the image of the external world. During his life, Gene Nunnery was recognized as a master turkey hunter and an artisan who crafted unique, almost irresistible turkey calls. In *The Old Pro Turkey Hunter*, the vaunted sportsman shares over fifty years of personal experience in Mississippi and surrounding states, along with the decades-old wisdom of the huntsmen who taught him. Throughout the book, his stories make clear that turkey hunting is more than just killing the bird--it is about matching wits with a

wild and savvy adversary. As Nunnery explains, "To me that's what it's all about: finding a wise old gobbler who will test your skill as a turkey hunter." Through his stories, Nunnery reveals that the true reward for successful turkey hunting lies in winning the contest, not necessarily exterminating the foe. Real sportsmen know that every now and then the turkey should and will elude the hunter. As Nunnery looks back on his extensive career, he analyzes vast differences in practice, old and new. The shift, he decides, came during his last twenty years on the hunt, and that difference has only increased in the decades since this book was originally published. Michael O. Giles, Bass Pro staff team member, master turkey hunter, and award-winning outdoors writer and author of *Passion of the Wild*, writes a new foreword that brings the practice of turkey hunting into the present day. Filled with a tested mixture of common sense and specific examples of how master turkey hunters honor their harvest and

heritage, *The Old Pro Turkey Hunter* is the perfect companion for the novice or the adept. 'Essential reading for anyone interested in Turkey and its future.' Literary Review 'Essential reading full stop.' Peter Frankopan 'It is a must.' The Times Who is Recep Tayyip Erdogan, and how did he lead a democracy on the fringe of Europe into dictatorship? How has chaos in the Middle East blown back over Turkey's borders? And why doesn't the West just cut Erdogan and his regime off? Hannah Lucinda Smith has been living in Turkey as the Times correspondent for nearly a decade, reporting on the ground from the onset of the Arab Spring through terrorist attacks, mass protests, civil war, unprecedented refugee influx and the explosive, bloody 2016 coup attempt that threatened to topple - and kill - Erdogan. Erdogan Rising introduces Turkey as a vital country, one that borders and buffers Western Europe, the Middle East and the old Soviet Union, marshals the second largest army in NATO and hosts more refugees than any other

nation. As president, Erdogan is the face of devotion and division, a leader who mastered macho divide-and-rule politics a decade and a half before Donald Trump cottoned on, and has used it to lead his country into spiralling authoritarianism. Yet Erdogan is no ordinary dictator. His elections are won only by slivers, and Turkey remains defined by its two warring cults: those who worship Erdogan, the wilful Muslim nationalist with a tightening authoritarian grip, and those who stand behind Ataturk, the secularist, westward-looking leader who founded the republic and remains its best loved icon - now eighty years dead. Erdogan commands a following so devoted they compose songs in his honour, adorn their homes with his picture, and lay down their lives to keep him in power. *Erdogan Rising* asks how this century's most successful populist won his position, and where Turkey is headed next. Turkish society has been going through institutional and ideological change that has affected its social,

cultural and political practices. This book examines these contemporary tensions, which have led to a re-appraisal of Turkey as a nation and Turkish nationalism as it tries to situate itself as a regional and global power. Analysing the internal and external dynamics of Turkey and the role played by nationalism, this book considers how the understanding of the nation and nationalism has changed since the creation of the Republic of Turkey, and how it has now become central to its desire to become a global power. Despite on-going negotiations about entry into the EU, an ambition for Turkey to be a regional power feeds nationalist feeling that contradicts institutional, discursive and cultural changes. Presenting interdisciplinary perspectives from experts in history, sociology, political sciences and economics, the contributors offer new perspectives on contemporary Turkey and its future. *Turkey between Nationalism and Globalization* will be of interest to students and scholars of Turkish

studies; globalization studies, nationalism studies, Middle Eastern and Mediterranean studies, international relations, political science and sociology. Guaranteeing energy security is one of the most important challenges for Europe today. Especially since the crises in Ukraine, Europe's interest in an additional supply line of gas and oil to Europe through Turkey has been growing steadily. In both political and academic discourse the question of whether Turkey can develop into a possible future 'energy hub' is a hotly debated issue. The country's geographical position is a big advantage as more than 70 per cent of the world's oil and gas reserves are located close by. The country may thus hold a key position in the distribution of oil and gas. Will Turkey, itself almost fully dependent on imports, be capable of becoming an energy hub? This edited volume examines Turkey's prospects as a possible energy hub and in its role in the EU's energy security. The contributions it contains reflect geopolitical dynamics and

interests, economic trends, and the prevailing perceptions of this issue in Turkey and the European Union. Mrs. Gumm finds a turkey egg and raises the poult for Thanksgiving dinner, but will her new friend become her dinner or a guest? Where is Turkey Headed? Culture Battles in Turkey looks into the dynamics of social change in Turkey from the broad perspective of a German journalist who lived in Istanbul for nearly two decades. With a panoramic view of the history of the Turkish republic, including the late Ottoman era, the author presents a critical analysis of the cultural, economic and political transformation Turkey has long been going through. He discusses that the driving force for this change has its roots in the very society that has discovered its cultural, religious and ethnic diversity, and is pushing back against omnipotent government control. This book exposes Turkish policies concerning European Jews during the Hitler era, focusing on three events: 1. The recruitment of German Jewish

scholars by the Turkish government after Hitler came to power, 2. The fate of Jews of Turkish origin in German-controlled France during WWII, 3. The Turkish approach to Jewish refugees who were in transit to Palestine through Turkey. These events have been widely presented in literature and popular media as conspicuous evidence of the humanitarian policies of the Turkish government, as well as indications of the compassionate acts of the Turkish officials vis-à-vis Jewish people both in the pre-war years of the Nazi regime and during WWII. This volume contrasts the evidence and facts from a wealth of newly-disclosed documents with the current populist presentation of Turkey as protector of Jews.

Turkey: A necessary ally in a troubled region  
With the new administration in office, it is not clear whether the U.S. will continue to lead and sustain a global liberal order that was already confronted by daunting challenges. These range from a fragile European Union rocked by the

United Kingdom's exit and rising populism to a cold war-like rivalry with Russia and instability in the Middle East. A long-standing member of NATO, Turkey stands as a front-line state in the midst of many of these challenges. Yet, Turkey is failing to play a more constructive role in supporting this order--beyond caring for nearly 3 million refugees, mostly coming from the fighting in Syria--and its current leadership is in frequent disagreement with its Western allies. This tension has been compounded by a failed Turkish foreign policy that aspired to establish its own alternative regional order in the Middle East. As a result, many in the West now question whether Turkey functions as a dependable ally for the United States and other NATO members. Kemal Kirişci's new book argues that, despite these problems, the domestic and regional realities are now edging Turkey toward improving its relations with the West. A better understanding of these developments will be critical in devising a new and realistic U.S.

strategy toward a transformed Turkey and its neighborhood. Western policymakers must keep in mind three on-the-ground realities that might help improve the relationship with Turkey. First, Turkey remains deeply integrated within the transatlantic community, a fact that once imbued it with prestige in its neighborhood. It is this prestige that the recent trajectory of Turkish domestic politics and foreign policy has squandered; for it to be regained, Turkey needs to rebuild cooperation with the West. The second reality is that chaos in the neighborhood has resulted in the loss of lucrative markets for Turkish exports—which, in return, increases the value to Turkey of Western markets. Third, Turkish national security is threatened by developments in Syria and an increasingly assertive Russia, enhancing the strategic value of Turkey's "troubled alliance" with the West. The big question, however, is whether rising authoritarianism in Turkey and the government's anti-Western rhetoric will cease

and Turkey's democracy restored before the current fault lines can be overcome and constructive re-engagement between the two sides can occur. In light of these realities, this book discusses the challenges and opportunities for the new U.S. administration as well as the EU of re-engaging with a sometimes-troublesome, yet long-time ally. Do you love Turkey? Everything Turkish from Istanbul to Ankara and Antalya? Show everyone herewith what you think about Türkiye! Perfect gift for every Turk for Birthdays, Christmas and more! This timely work explores how, after a long period of isolation, Turkey is becoming a major player in Middle Eastern politics once again. In fact, by acting independently and attempting to reconcile its constitutionally secular form of governance and vibrant traditional culture, it is now for the first time becoming positively viewed by others in the Muslim world as a state worth watching and maybe even emulating. As a result, Turkey's dynamic political scene and new

search for independence in its foreign policy, however complicating or irritating for the United States today, will nonetheless ultimately serve the best interests of Turkey, the Middle East, and even the West. Drawing heavily on a range of Turkish and Western sources, this multidimensional, lively, and nuanced volume provides an excellent introduction to one of the region's most fascinating and complex countries and makes a highly valuable contribution to the current debate about Turkey and its place in the world." "In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics

officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey."--Bloomsbury Publishing. A child observes wild turkeys through the seasons. Includes facts about this classic American bird. "Food historian Andrew F. Smith presents the turkey in ten courses, beginning with the bird itself (actually, several species of it) in the wild. The Turkey

subsequently includes discussions of practically every aspect of the icon, including its arrival in early America, how it came to be called "turkey," its domestication and mating habits, the expansion of the bird's territory into Europe, conditions in modern turkey processing plants, and the surprising boom-or-bust cycles in turkey husbandry. The bird's ascension to holiday mainstay - and the techniques of stuffing - are also discussed." "As one of the easiest foods to cook, the turkey's culinary possibilities have been widely explored if little noted. The second half of this book is a collection of more than a hundred historical and modern turkey recipes from across America and Europe."--BOOK JACKET. An illustrated guide to hunting for one of America's most popular game birds. The Turkey of today little resembles that of recent decades. Its economy has expanded hugely, new political elites have emerged, and the once powerful Kemalist military is no longer a potent and dominant political player. Meanwhile, new

prosperity has had many unexpected social and political repercussions, pre-eminent among which is the advent of the Justice and Development Party (AKP), which first came to power in 2002 by downplaying its Islamist leanings and marketing itself as a center-right party. After several terms in office, and amid unprecedented popularity, the conduct of the AKP and its leading cadres has faced growing criticism. Turkey has yet to solve its Kurdish question, and its foreign policy is increasingly under threat as it balances relations with Iran, Israel, Iraq and Russia, to name only a few of its more demanding interlocutors. Widespread domestic protests gripped the country in 2013. The government is now perceived by many to be corrupt, unaccountable, intimidating of the press and intolerant of alternative political views and criticism. Has this once promising democracy descended into a tyranny of the majority led by a charismatic leader, Recep Tayyip Erdogan? Is Turkey more polarized now than ever in its

recent history? These are among the questions posed in this timely primer on a rising economic power. Natural history, range, management, and hunting of America's greatest game bird. This concise history tells the story of Turkey, a country caught between the ideologies of East and West. From its beginnings as a disparate group of tribes to its status as the first secular republic in the Islamic world, Ahmad provides a full survey of Turkey's chequered past. Covering nearly 1,000 years of history, from the eleventh-century invasion of Anatolia to attempts at European integration and involvement in the 2003 war with Iraq, Ahmad unpicks the debates and puts historical disputes in context. This updated edition also examines the problems faced by modern Turkey, from the rise of Islamic militancy to current political tensions in Turkey's government. Whether student, general reader or first-time visitor, this wide-ranging account will be greatly appreciated by all those with an interest in the past, present and future

challenges facing this diverse, and often misunderstood, country. This book offers a systematic overview of successes and failures of Turkey's mediation initiatives in fragile and conflict-affected societies in the Middle East, western Balkans, and sub-Saharan Africa. It analyzes the narratives that guide Turkish mediation, the tools used by the Turkish government, and Turkey's evolving self-image as a mediator. Since the creation of the North Atlantic Treaty Organization in 1949, America's security partnership with Turkey has been a strategic asset that both parties value. Now, however, trends in the greater Middle East, in Turkish security policies, and within Turkish society itself appear to be eroding the commonality of interests that constitutes the foundation of that partnership. Left unchecked, these trends could diminish U.S. influence in Turkey and increase instability in the Middle East. This monograph explores the dynamics of the evolving U.S.-Turkish security relationship

and their implications for U.S. foreign and security policies. Turkey is positioned to become the twenty-first century's first Muslim power. Based on a dynamic economy and energetic foreign policy, Turkey's growing engagement with other countries has made it a key player in the newly emerging multidirectional world order. Turkey's trade patterns and societal interaction with other nations have broadened and deepened dramatically in the past decade, transforming Turkey from a Cold War outpost into a significant player internationally. Turkey's ascendance and the changes that have taken place under the leadership of Turkey's Muslim conservative government have prompted its policymakers to craft a new vision of their role in twenty-first-century society. This developing worldview animates Turkey's desire to sometimes take the lead with its co-religionists and occasionally challenge its partners in the West, while showing no inclination to become an irresponsible rising

power. If it can consolidate liberal democracy at home, Turkey could also assume the role of serving as an example for the newly emerging governments brought about by the Arab Spring. The cornerstone of Turkey's rise has been the government's ability to foster stable political conditions for economic growth, alongside a foreign policy that balances Turkey's Muslim identity with its Western overlay, including its strong ties to the United States. Accordingly, policies that could tarnish Turkey's reputation as a bastion of stability risk undermining its position between Europe, the United States, and the Middle East. This realization has been the catalyst for Ankara's careful management of Eastern and Western desires and expectations. The result is a new Turkey: a twenty-first-century Muslim power that promotes stability without the confines of a regional, European rubric. When I Was a Turkey is a middle-grade adaptation of the remarkable true story of a naturalist who raised a flock of wild turkeys

using imprinting. This educational turkey books for kids presents facts along with full color photographs and carefully chosen words to teach children about the Turkey. Packed with facts about the turkey, your children or grandchildren will enjoy learning from start to finish while they read this turkey kids book. This book was a pleasure to write, and knowing that children learn from it made it all worthwhile! If you want to learn about the turkey, you will enjoy this kids turkey books. Learn many interesting facts and see some beautiful photographs of the turkeys. The gorgeous photographs will keep your child engaged from beginning to end. Included in the paperback version are some coloring pages for your child! Note: This book is suitable for children 5 years or age and older, although younger children will enjoy it if you share it with them. Grab your copy NOW by clicking the buy button at the top right of the page. In spoken-word song with rhyming text, a turkey describes his life in a large flock,

always looking out for other creatures that might find him tasty. (Internet component includes downloadable song) --Provided by publisher An unforgettable story about the fascinating behavior of the most elusive of wild game birds. When Joe Hutto began his experiment in imprinting two dozen wild turkey--in the tradition of the great animal behaviorist, Konrad Lorenz--he had no idea that it would change his life. Told with skill and humor, and vibrating with the natural wonders of the Florida flatwoods, Illumination in the Flatwoods will amaze and enrich all who share this season with the wild turkey. As Thanksgiving Day approaches, Turkey nervously makes a series of costumes, disguising himself as other farm animals in hopes that he can avoid being served as Thanksgiving dinner. A turkey narrates this photo-illustrated book describing the body parts and behavior of turkeys on a farm. Includes photo glossary and labeled diagram. With the end of Cold War discipline the world has entered

a new era. Parameters have changed; new handicaps as well as new opportunities have been created for countries. Turkey as a neighbor of former USSR, a member of NATO and located at the center of a sensitive region covered by Caucasus, Balkans and Middle East, has been affected by the end of Cold War radically. Turkey has lost some of her bargaining cards in the new era and therefore has needed new arguments. This need encouraged Turkey to take active steps in Post Cold War era. This book analyzes Turkey's relations with US, EU, Balkans, Middle East, Caucasus, Central Asia, Russia, China and Japan. At the same time, effects of economic crises and domestic developments on foreign policy, Turkish model in Turkish foreign policy, water conflict and Kurdish problem are analyzed as well. To conclude, it is possible to argue that although Turkey lost some of her bargaining cards in Post Cold War era, new developments pushed Turkey to the center of world politics rather than to periphery. Contributors: Meliha

Benli Altunisik, Deniz Ülke Arıboğan, Hüseyin Bağcı, İdris Bal, Zeyno Baran, Fulya Kıp Barnard, Erol Bulut, İbrahim S. Canbolat, Saziye Gazioglu, Ramazan Gözen, Saban Kardas, H. Bülent Olcay, Cengiz Okman, Henry E. Paniev, Victor Panin, Dirk Rohtus, Faruk Sönmezoglu, Gül Turan, İlter Turan, Mustafa Türkes, Nasuh Uslu. Since the early 2000s, Turkey has shown an unprecedented interest in its diaspora. This book provides the first in-depth examination of the institutionalisation of Turkey's diaspora engagement policy since the Justice and Development Party's rise to power in 2002, the Turkish diaspora's new role as an agent of diplomatic goals, and how Turkey's growing sphere of influence affects intra-diaspora politics and diplomatic relations with Europe. The book is based on fieldwork in Turkey, France and Germany, and interviews conducted with diaspora organisation leaders and policymakers. Diasporas have become transformative for relations at the state-to-state level and blur the

division between the domestic and the foreign. A case study of Turkey's diasporas is significant at a time when emigrants from Turkey form the largest Muslim community in Europe and when issues of diplomacy, migration and citizenship have become more salient than ever. This book by two leading experts provides a comprehensive analysis of Turkey's relationship with the European Union, set in its regional and international context. It provides three analytical lenses through which the relationship might be understood - Turkey as an enlargement country, as an EU neighbour and as a global partner - and unpacks the implications of each. Turkey and the European Union focuses on the five pillars that help define the relationship: economics, migration, security, democracy and human rights, and culture and identity. It shows how the differing perspectives on Turkey's role can influence events and developments in these areas, and it traces the profound fluctuations in relations, from the Association Agreement of

1963, to the candidacy for full membership of 1999, to the limbo of today. Turkey continues to be a critically important country for the European Union. The relationship has consequences that are both ideational, embedded in history, politics, identity and culture, and material, relating to economics, energy and security. In examining this complex relationship, this book addresses a key issue for Europe's future, and does so in a fashion that is both sophisticated and accessible. This book is a collection of stories written by one of America's most traveled and experienced turkey hunters; a man who has taken multiple toms from 49 states. Such a feat didn't come easily, so you might expect these pages to fairly drip with wise words of wisdom and sage advice on how to hunt those wily, elusive birds?and they do. However, "Doc" Weddle didn't write an instruction manual. Instead, he takes the reader on a trip down memory lane to recall exciting hunts which helped shape him into becoming the true

"Turkey Man" that he is today. Novice or veteran readers alike will undoubtedly gain valuable knowledge here, but the author is first and foremost a storyteller, and he has written this book simply to entertain his audience in a manner reminiscent of outdoorsmen standing around campfires and sharing the colorful details of their hunts with cohorts and companions. The tales told between these covers will propel the reader across every geological region of the United States; from the hot, humid, jungle habitat of southern Florida, to the arid, cactus-laden plains of the desert southwest, and right on up into the snow-capped mountain states?plus, nearly everywhere else, in between! Whether Doc is chasing after the Rio Grande, Osceola, Eastern, or Merriam's subspecies, these accounts are bound to strike a chord with fellow turkey hunters, for they come straight from the heart of a man who has literally designed a life around hunting turkeys all spring long, and wherever he chooses to go.

Additionally, there is an element of awe factor involved here, since just about every one of these tales take place on public lands. Few people would be willing to endure the hardships inherent in following such a difficult path, but our author prides himself on persevering through adverse conditions, and excelling in tough environments where others tread lightly, if at all. The reality is that he's been doing this very thing for over three decades, and never returns home without new and exciting stories to tell. His cooler usually contains fresh turkey meat, as well. \*New Edition of the Leading Work on Modern Turkey\* In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdogan. Since 2002, Erdogan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional

power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdogan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Who is Recep Tayyip Erdogan, and how did he lead a democracy on the fringe of Europe into dictatorship? How has chaos in the Middle East blown back over Turkey's borders? And why doesn't the West just

cut Erdogan and his regime off. Hannah Lucinda Smith has been living in Turkey as the Times correspondent for nearly a decade, reporting on the ground from the onset of the Arab Spring through terrorist attacks, mass protests, civil war, unprecedented refugee influx and the explosive, bloody 2016 coup attempt that threatened to topple - and kill - Erdogan. Erdogan Rising introduces Turkey as a vital country, one that borders and buffers Western Europe, the Middle East and the old Soviet Union, marshals the second largest army in NATO and hosts more refugees than any other nation. We are introduced to Erdogan as the face of devotion and division, a leader who mastered macho divide-and-rule politics a decade and a half before Donald Trump cottoned on, and has used it to lead his country into spiralling authoritarianism. Yet Erdogan is no ordinary dictator. His elections are won only by slivers, and Turkey remains defined and divided by its two warring cults: those who worship

Erdogan, the wilful Muslim nationalist with a tightening authoritarian grip, and those who fly fierce flags for Ataturk, the secularist, westward-looking leader who founded the Republic and remains its best loved icon - now eighty years dead. Erdogan commands a following so devoted they compose songs in his honour, adorn their homes with his picture, and lay down their lives to keep him in power. *Erdogan Rising* asks how this century's most successful populist won his position, and where Turkey is headed next. Thanksgiving is all about showing kindness and gratitude to everyone you love—and if you're careful and clever, you can help a turkey friend find his own family, too! Will you meet a turkey this Thanksgiving? If you do, will you be ready to help hide him as a special pet until he can find his flock again? By being helpful, friendly, and smart, you can help your new turkey friend get back to his family in the wild by disguising him as you search! So, grab some supplies—scissors, colored paper, glue, and and string—and get

ready to make a mask to keep your turkey friend safe. Then be you can work together to hide him until he can find his family flock! Sue Fliess's poetic read-aloud text and Simona Sanfilippo's vibrant, whimsical illustrations will provide joy for young readers eager to make a turkey friend (and disguise)! Also included are guides for teachers and parents about how to engage children in making turkey masks, learning about the history of Thanksgiving and facts about turkeys, and the value of friendship and family on this special day of gratitude. Born in London to a Turkish mother and British father, Alev Scott moved to Istanbul to discover what it means to be Turkish in a country going through rapid political and social change, with an extraordinary past still linked to Mustafa Kemal Ataturk and an ever more surprising present under the leadership of Recep Tayyip Erdogan. From the European buzz of modern-day Constantinople to the Arabic-speaking towns of the south-east, *Turkish Awakening* investigates

mass migration, urbanisation and economics in a country moving swiftly towards a new position on the world stage. This is the story of discovering a complex country from the outside-in, a candid account of overturned preconceptions and fresh understanding. Relating wide-ranging interviews and colourful personal experience, the author charts the evolving course of a country bursting with surprises - none more dramatic than the unexpected political protests of 2013 in Taksim Square, which have brought to light the emerging demands of a newly awakened Turkish people. Mass migration, urbanisation and a growing awareness of human rights have changed the social, economic and physical landscapes of a powerful country, and the 2013 protests were just one indication of the changes afoot in today's Turkey. Threatened as it is by recent developments in Syria and Iraq and the approaching danger of ISIS. Encompassing topics as varied as Aegean camel wrestling,

transgender prostitution, politicised soap operas and riot tourism, this is a revelatory, at times humorous, at times moving, portrait of a country which is coming of age.
